Amery Goes All Out Against Indians

Pleads Lack Of Indian Talent To Replace Europeans In Viceroy's Council

LONDON, October 22.

Mr. L. S. Amery, Secretary of State for India, was asked in the House of Commons why the Indianisation of the Viceroy's Executive Council had not been completed by appointing three Indians to hold the portfolios still held by European members.

Mr. Amery replied that the Viceroy had expanded his Executive Council to secure the efficient and continual support of its members, in order to meet war conditions. He was satisfied that in the existing Council there were members best fitted for the present task. The present European members were being retained merely because of the difficulty in finding suitable Indian for the posts.

Regarding the Indianisation of the Viceroy's Executive, he said the retention of the three European members was not due to race. The Viceroy had been concerned to secure efficiency and continuity and was satisfied that the existing Council contained those best qualified to fulfil their respective offices. No particular appointment was held on account of race.

No Allied War Council In India

LONDON, Oct. 22.

Independent Mr. Edgar Granville who is a frequent critic of the present Government, asked in the House of Commons to-day if the Government would consider setting up an allied War Council in India, inviting representatives of the United States, Russia and China to serve with those of Britain and India to secure full strategic co-operation under an unified command of Gen. Wavell of those powers concerned in India's defence.

The Deputy Prime Minister Mr Clement Attlee replied: "No Sir".

Mr. Granville: "Can Mr. Attlee say if there is any regular consultations with the United Nations on the defence of India".

Mr. Attlee replied: "There is full consultation".

Mr. Granville: "Will the Government take advantage of the presence of Field Marshal Smuts and call together an Allied War Conference in London to discuss the defence of India and other Allied strategy?"

Mr. Attlee replied: "There was a meeting of the Pacific Council yesterday to deal with these matters."—Reuter.

"DON'T GO TO SONEPUR MELA THIS YEAR"

PATNA, Oct. 22.

The Sonepur fair held across the Ganges near Patna, considered by many to be the largest of its kind in the world, is the subject of a Press Note issued by the Bihar Government which emphasises the necessity of restricting the size of the Mela this year and the steps taken by them for the purpose, in view of the existing conditions.

The note says: "In the present abnormal circumstances the assembling of such large numbers of people as usually come to Sonepur for the Mela is dangerous and would expose the public to undue risk if hostile air raids on India should take place, these risks may be greater.

In addition to these difficulties, it will not be possible for the railways this year to provide the usual facilities for bringing passengers to Sonepur for the Mela. —A. P.

Confidence that Japan's offensive power has passed its peak was expressed by Gen. Chiang-Kai-Shek, when he opened the third Session of the People's Political Council here to-day.

"Japan's utter defeat is inevitable as well as complete Allied victory over the Axis Power", he said.

Japanese Pushed Out

SYDNEY, Oct. 22.

The Japanese were pushed out of strong defensive positions south of the Eora Creek village, twelve miles south of the important Japanese supply base of Kokoda on Tuesday, says a report to-day from a correspondent in New Guinea. There was heavy fighting during the day and night and the Japanese are believed to have suffered considerable casualties. It is the second seriously defended rearguard line from which the Japanese have been dislodged in the past week. The Japanese used their machine-guns and mortars well from cleverly concealed pits and Allied troops only gained the position by a direct frontal attack in full force after outflanking movements had failed. From the position gained the terrain gradually sloped away to Kokoda, although there are further ridges where it might be possible for the Japanese to make another stand.—Reuter.

WASHINGTON, Oct. 22.

The report that the unity of Command was shaky in the Pacific was strongly denied this morning when the Secretary for War Mr. Stimson asserted that Gen. Ghormley and Gen. MacArthur were co-operating entirely in the Solomons action. The group was actually under the direct general command of Ghormley but Gen. MacArthur was providing valuable assistance with bombers.

The Senate to-day approved the one thousand million dollars supply bill for the navy and other war agencies and sent the measure to the White House.—Reuter.

Plea In Nagpur High Court On Behalf Of Chimur Accused

NAGPUR, Oct. 22.

Before the Division Bench of the Nagpur High Court consisting of their Lordships Mr. Justice M. R. Neogy and Mr. Justice K. G. Digby, several applications in the nature of 'habeas corpus' are being heard since Monday last.

Mr. K. M. Munshi of Bombay appeared for the persons under trial at Chimur in connection with the murder of certain Government officials, while Mr. Bobde appeared for the persons convicted in the Nagpur Constable Murder Case.

Important grounds urged were that an ordinance can only be promulgated if there was an emergency in existence. In these cases the Ordinance itself gave powers to the Provincial Governments to decide whether an emergency had come into existence at a later date. It was further urged that the discretion vested in the Governor-General under Section 72 of the Government of India Act 1919, to bring an ordinance into effect, could not be delegated to the Provincial Governments as was done under this ordinance. It was further urged that as offences were committed before the ordinance came into force, the applicants were not liable to be tried thereunder as the ordinance was not to have retrospective effect.

Mr. Munshi concluded arguments to-day.

Mr. J. T. Kedar began arguments in another application submitting that the Viceroy had no powers to frame an ordinance in respect of a matter which was within the exclusive jurisdiction of the Provincial Legislature.

The case will be resumed on Monday.

Mr. Munshi will leave for Bombay on Friday.—A. P.

Asked if the Congress decision on the Cripps offer was the result of free discussion and voting or the result of pressure by Mahatma Gandhi, Mr. Amery said he did not know, but it would appear from subsequent action that Mr. Rajagopalachari must have dissented.—Reuter.

HIDAYATULLAH TRIUMPHS

Two Hindu Ministers Who Quit Independent Party Join Cabinet

KARACHI, Oct. 22.

Dr. Hemandas and Rai Saheb Gokaldas (the latter a Minister in Allahbux Cabinet) were sworn in this morning as the two Hindu Ministers, thus completing Sir Ghulam Hussein Hidayatullah's Coalition Ministry.

Dr. Hemandas and Rai Saheb Gokaldas told the "Associated Press" after they had attended office as Ministers that they had resigned from the Hindu Independent Party.

GOVT. COMMUNIQUE

The following 'communique' was issued from Government House at noon:—

"Raisaheb Gokaldas and Dr. Hemandas Wadhwani were sworn in this morning as members of the Cabinet of Sir Ghulam Hussein Hidayatullah."

The following portfolios have been assigned to the Hindu Ministers: Raisaheb Gokaldas: Public Works and Local Self-Government. Dr. Hemandas: Agriculture, Health and Medical.

The following statement has been issued by Rai Saheb Gokaldas, one of the Ministers sworn in this morning:

"After the dismissal of Mr. Allahbux we were asked by the Governor to continue in office as the question of our resignation did not arise. Accordingly I advised the leader of the Hindu Independent Party and other party colleagues that we should continue in office as otherwise it won't be in the interests of our province to disturb the existing arrangements in view of the prevailing conditions in Sind. Mr. Allahbux and our Party leader held the strong view that there would be no possibility of forming any alternative Government and therefore the best course was to inform the Governor that after the dismissal of the Premier it was our opinion that we ceased to be Ministers according to the constitution. Accordingly as desired by Mr. Allahbux and Mr. Nichaldas (then the Party Leader) we informed His Excellency accordingly. As we honestly thought that we were the nominees of Mr. Allahbux and that he wanted our resignations we were in duty bound to inform His Excellency accordingly"

Rai Saheb Gokaldas continued: After that the question was discussed by our Party (Hindu Independent Party) and we resolved to wait and watch the actions of the Muslim groups—not with the intention of bringing friction among them but with a view to give them a chance to form a Ministry if they wanted—and we would be prepared to join if any Party wanted us to do so. The negotiations were going on with Sir Ghulam Hussein Hidayatullah and his Party. Meanwhile, Mr. Jinnah's statement appeared and the leader of our Party wanted to adopt a stiff attitude and that we should go into opposition. It was also pressed by some that we should await the results of negotiations with Sir G. H. Hidayatullah. The Party Leader (Mr. Nichaldas) was inclined to enter office but wanted time for this.

Proceeding Rai Saheb Gokaldas criticised Mr. Nichaldas and added: "This morning Sir G. H. Hidayatullah assured us through Dr. Hemandas that he would safeguard minority interests and give full co-operation to both the Hindu Ministers. He appealed to us to join the Coalition Ministry."

CHURCHILL WINS LIBEL SUIT

NEW YORK, Oct. 22.

Mr. Churchill was awarded judgment with £100 as costs when counsel for Mr. William Griffin, publisher of the New York "Enquirer", failed to appear to Press his million dollar libel suit against Mr. Churchill.

In October 1939 Mr. Griffin filed a suit for slander against Mr. Churchill in the New York Supreme Court. Mr. Griffin alleged that in an interview with him on August 11, 1936, Mr. Churchill said "It was all a mistake for us (the United States) to enter the war."

Mr. Griffin said Mr. Churchill denied that he had said this and the slander action was based on the Prime Minister's denial. In March, 1940, attorneys acting on behalf of Mr. Churchill served on Mr Griffin a general denial of his allegations. In July this year it was announced that Mr. Griffin was held in New York on 5,000 dollars bail until his removal to Washington where he and 27 others were due to face charges of conspiring to impair the morale of the United States armed forces.—Reuter.

Signs Of Winter Near Stalingrad

Tempo Of German Assault Slows Down

MOSCOW, October 22.

The Germans in Stalingrad have been forced once more to regroup and await reinforcements from the Don Elbow across the region, while being increasingly subject to Soviet pressure from the North and the North-West.

On the Southern outskirts of the city, the enemy is firmly pinned down.

Fierce fighting is taking place south-east of Novorossisk where snow has fallen. The Germans for the past ten days have thrown in big forces in order to break through to the Black Sea coast. Tanks cannot be used on a mass scale, but the Luftwaffe is concentrating on the task of wrecking the road, up which move Soviet reserves.

On a small important sector, the Germans are attacking with three divisions. Ten days' fighting has cost the Germans 4,000 killed. A big group of German tommy gunners penetrated the Soviet lines and fortified themselves in a village from where they were ejected by a night attack.

DARLAN AT DAKAR

LONDON, Oct. 22.

The Vichy radio announced today that Admiral Darlan, Commander-in-Chief of the Vichy armed forces, has arrived at Dakar on a tour of inspection of Africa.—Reuter.

A supplement to the Soviet midday communique to-day (Thursday) says north-west of Stalingrad a Soviet detachment broke into enemy trenches and inflicted many casualties. On the north-western front, there were artillery duels and a number of enemy guns were destroyed. Soviet sappers penetrated behind the enemy lines and wrecked two troop trains and blew up five railway bridges.

Soviet troops on the Mozdok front have thwarted the German pincers movement with fifty tanks. The German tanks could not get through to the Soviet first line. A German infantry attack across one and half miles of Noman's Land fared equally badly, and there is now a deadlock in this sector.

To-day's (Thursday's) Soviet midday communique states "during the night of October 21, our troops fought the enemy in the areas of Stalingrad and Mozdok. No changes took place on other fronts."

The tempo of the German assault in north Stalingrad has slowed down, says Reuter's Special Correspondent.

All German attacks against factories in three sectors in the past 24 hours were repelled after fierce fighting. A cold wind with steady driving rain is sweeping through the city. The roads are now coated with mud. After two days' fierce fighting, Soviet troops have taken a height on the Steppes near Stalingrad. All German counter-attacks have been repelled. The height is one of a chain from which Stalingrad itself can clearly be seen.

German motorised infantry is now reported to be moving along roads to the height.

DREADED SIGNS OF WINTER

LONDON, Oct. 22.

The Columbia Broadcasting System's commentator said in a Moscow broadcast to-day "Germans are seeing the dreaded signs of winter. Snow has fallen near Stalingrad. The going is getting tough, and reports from the city say that the Germans trying to force their way through the streets are getting tired."

"HANDMAID OF BUREAUCRACY"

'Hindu' Exposes India Govt.'s Method Of Censorship Of Incoming News

MADRAS, Oct. 22.

Under caption "Indian Censorship" "The Hindu" in the course of an editorial referring to Mr. Amery's communication to the Empire Press Union in London says:

That reply gives no evidence that the Government of India are prepared to change their ways in this matter. They still adhere to their policy of suppressing the fact of suppression by refusing to let either the editor or the correspondent concerned know about it. The result of this procedure on the work of London correspondents was all brought out by spokesman of the deputation when he said: "At present we are completely in the dark about the fate of our messages. A correspondent might follow up a story only to find that the previous story had been killed and the follow-up thereby rendered meaningless. As for withholding information about deletions from the editors at this end, it either betrays a lack of trust, which is directly at variance with the frequent protestations to the contrary by official spokesmen, or a tell-tale reluctance to subject the judgment of the censor to impartial journalistic scrutiny.

But the cream of the joke lies in the Government of India's claim that their censorship is liberal.

Concluding the paper observes: The fact of the matter is that censorship in India is fast becoming an handmaid of the bureaucracy, aiding and abetting the latter in its efforts to prevent the publication of inconvenient facts and unpalatable criticisms. There is urgent need for censorship to be brought back to its legitimate sphere as a war measure.—A. P.

Magistrate's Warning To Absentee Policeman

BOMBAY, Thursday.

A warning to the effect that "he would have to write to the Chief Presidency Magistrate and also to the Commissioner of Police if such things continued," was sounded by Mr. I. S. Haji, Presidency Magistrate, Mazagaon Court, this morning, when he was told that a police constable, who was expected to be present in the Court to give evidence in a case in which Manubhai Thakurdas is alleged to have thrown a soda-water bottle, was found to be absent.

An officer who was with the police party when the sodawater bottle was alleged to have been thrown said that the constable would be present in no time.

The Magistrate was not satisfied with this explanation, and remarked as above.

High Court

DISPUTE OVER MORTGAGED PROPERTIES

(Before the Hon'ble Mr. Justice Kania)
Sherbanoo Jafferbhoy Abdoolabhoy Laljee ..... Applicant
(3rd Defendant to the suit)
Versus.
1. The Hongkong and Shanghai Banking Corporation.
2 Messrs. Abdoolabhoy Laljee and Co.
3 Hooseinbhoy Abdoolabhoy Laljee
4 Haroon Husseinbhoy Laljee—Respondents (Plaintiffs and Defendants, 1, 2 and 4 respectively to the suit).

This was a notice of motion for an order that out of the sum of Rs. 2,100 per month to be received from the Government as rent of property known as "Flowermead" at Warden Road, Rs. 850 per month should be paid to the plaintiffs and the balance be distributed equally between the second and third defendants till its sale or in the alternative that the applicant be put in possession of a flat of Rukhia Manzil also at Warden Road and rent recovered only after the property is sold or in the alternative that the mortgaged property be sold.

The Hongkong and Shanghai Banking Corporation filed this suit to enforce the mortgages or charges created by deposit of title-deeds on the defendants' properties known as "Flowermead" and "Rukhia Manzil" both situated at Warden Road for securing the sum of Rs. 5,34,147-5-2 being the amount due at the foot of an overdraft account with interest and costs. On 26th April 1939 by consent of parties Mr. Justice B. J. Wadia had appointed Mr. F. E. Nicoll the plaintiffs' manager at Bombay as Receiver of the mortgaged properties, and had allowed the defendants to continue to reside in parts of the mortgaged properties. But as "Flowermead" had recently been rented by the Government at a monthly rental of Rs. 2,100 the applicant as well as Mr. Hooseinbhoy had to vacate it. The applicant therefore took out this notice of motion.

His Lordship ordered that the applicant Sherbanoo be at liberty to occupy the ground floor flat of "Rukhia Manzil" which was now vacant free of rent till the property was sold and was to vacate on the sale being confirmed by the Court. As between the third defendant on the one hand and defendants 1, 2 and 4 on the other, half of Rs. 150 per month was to be debited to Jafferbhoy's estate. His Lordship ordered that the sale of the mortgaged properties should be proceeded with with all dispatch and that the plaintiffs' costs be tacked on to the decretal amount while other parties were to bear their own costs of the Motion.

Mr. J. S. Khergamwalla instructed by Messrs. B. H Vakil and Co., appeared for the applicant in support of the notice of motion.

The Advocate-General, Mr. N. P. Engineer instructed by Messrs. Cragie Blunt and Caroe appeared for the plaintiffs.

Mr. C. K. Daphtary instructed by Messrs. J. S. Rutnagur and Co., appeared for defendants 1, 2 and 4.

Farewell Address To Mr. Justice Blackwell

The Advocate-General Mr. N. P. Engineer on behalf of the Bar bid Mr. Justice Blackwell an affectionate farewell in his well-merited retirement, when his Lordship sat as a judge for the last time on Thursday evening. Mr. Engineer observed that his Lordship had during the sixteen years he occupied the Bench given a patient, full and fair hearing and his judgments had been very seldom reversed and that he had shown thoroughness of a Greek scholar.

In a suitable reply to the Advocate-General, Mr. Justice Blackwell stated that much of his education as a judge who had to deal with peculiar aspects of Indian law was due to a strong and friendly Bar which had always assisted him.

Replying to Mr. H. A. H. Payne on behalf of the Solicitors. Mr. Justice Blackwell stated that he had married a lady who was the daughter, the grand-daughter and the great-grand-daughter of a Solicitor and that he had therefore embraced, both branches of the profession! (Laughter). Mr. Justice Blackwell stated that he hoped that the dual system would long continue in Bombay because a Solicitor saw so much of his client that he was not in a position to take an independent view and to advise him as he should. Mr. Justice Blackwell concluded by saying that in the words of a French poet he felt this parting as if he was "dying a little".

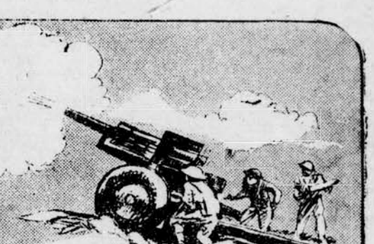
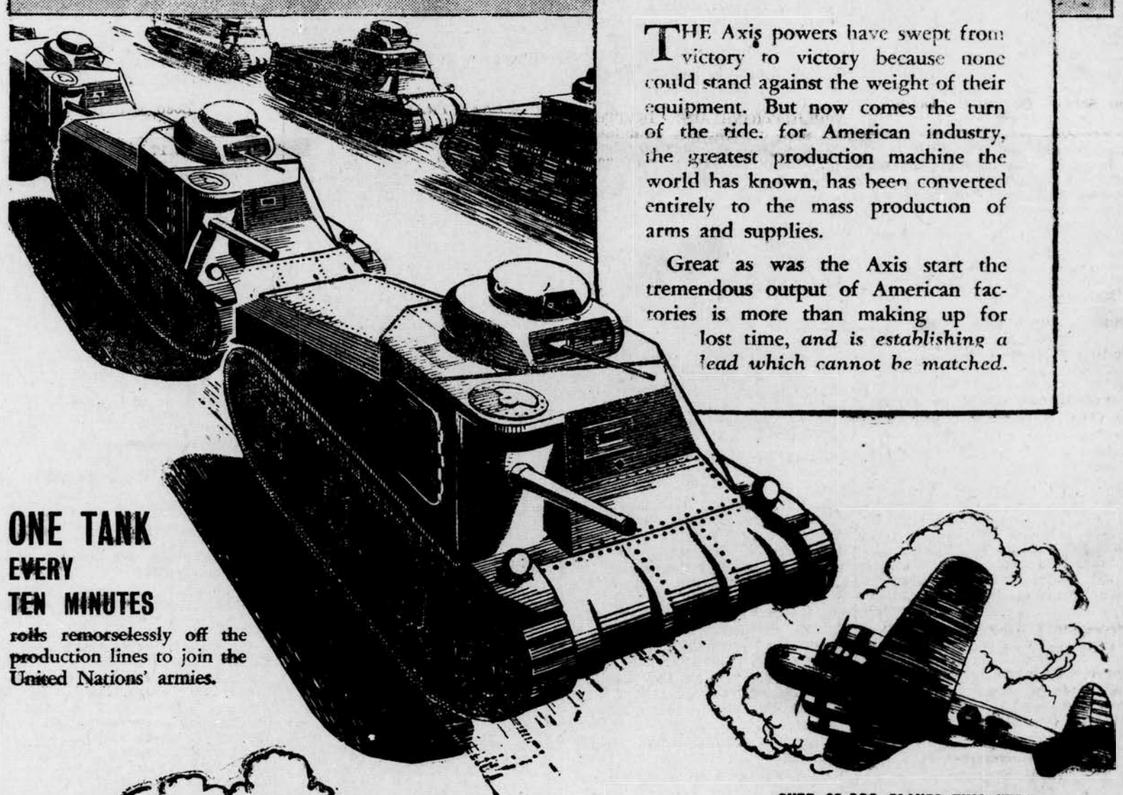
AMERICAN PRODUCTION TURNS THE TIDE



THE Axis powers have swept from victory to victory because none could stand against the weight of their equipment. But now comes the turn of the tide, for American industry, the greatest production machine the world has known, has been converted entirely to the mass production of arms and supplies.

Great as was the Axis start the tremendous output of American factories is more than making up for lost time, *and is establishing a lead which cannot be matched.*



ONE TANK EVERY TEN MINUTES rolls remorselessly off the production lines to join the United Nations' armies.

OVER 80,000 PLANES THIS YEAR, more than the combined aircraft production of all Axis and Axis-dominated countries.

THREE 10,000 TON SHIPS EVERYDAY are completed in American shipyards. By January 1943 production will be *four* ships a day.

Rs.72,60,00,00,000 IS THE COLOSSAL SUM THE UNITED STATES HAS ALREADY APPROPRIATED FOR WAR PURPOSES

TRUMP CARD IN MECHANISED WARFARE IS OIL—held by the United Nations in America's *daily* production of 18,00,00,000 gallons.

THE POWER BEHIND THE FIGHT FOR FREEDOM
Every day nearly 1,70,00,000 determined men and women go to work in America's war industries—and more will come if needed.

LEST WE FORGET

The India and Burma Bill has passed the House of Lords as a matter of course. But the laboured speeches in support of Government's Indian policy will only arouse more opposition to it both in India and America. Lord Winster remarked that "in America British stock is now very low", as the Americans "are not impressed by the assertion that we are willing to grant everything that India wants the moment Indian parties agree among themselves." If there was any doubt about this it will be removed by Lord Simon's speech which has made it clear that no scheme involving a fundamental departure from the present constitution will be accepted by Government even if it is agreed to by all the political parties in India. Sir Stafford Cripps stated as much when he visited India. Even with regard to the future constitution, it will not be enough if all the *popular* parties agree. It has been made pretty clear that the Princes as individuals and as distinct from the States people have got to be satisfied. Are not the British bound by solemn Treaty obligations to the Princes? Human nature being what it is, most of the Princes will refuse unless the alternative is a revolution, to part with their autocracy, however humiliatingly limited by the Political Department working behind the curtain. Even if a majority of the Princes agree to the people's scheme, how can the British sacrifice the minority Princes and the solemn Treaty obligations? The British Government will see to it that there is a sufficient number of Ulsters spread all over the country—that is, if they have the last word in the constitutional dispute. Lord Winster had good reason to suspect that Americans were not much impressed by the repeated talk of everything depending on agreement in India. Lord Samuel, too, must have been disgusted with this talk when he remarked that the parrot-like cry that the principal Indian parties must agree first before taking any step forward was futile.

Simon's "No"

When Mr. Rajagopalachari outlined his latest scheme for a provisional war-time Government he expected that it would be agreed to both by the Congress and the Muslim League and, therefore, by the British Government in accordance with their promise. But he had not then read Lord Simon's speech wherein he definitely said: "We are bound to take the line that during the war it is impossible to make any fundamental constitutional change." We do not know what Rajaji will say to this point-blank rejection of any scheme that means parting with real power to the people. He cannot deny that his scheme of a National Government responsible to the Legislature involves a fundamental change in the constitution. Perhaps he hopes that, if the Congress and the League make a united demand for a fundamental change in the constitution, the British Government will have to concede the demand, if only in the interests of the war. We cannot rule out such a possibility.

Adding Insult To Injury

But it must be stated here that Britain will bend not to a paper scheme, however perfect, but to the sanctions behind it and the most effective of such sanctions will be a Congress-League settlement. Mr. Amery seems disposed to reject even the scheme of Indianising the Viceregal Council without any further change in the constitution. And he adds insult to injury when he says that "the present European members are being retained merely because of the difficulty of finding suitable Indians for the posts." If efficiency and loyalty to "India First" are criterions of merit there are any number of Indians who can beat the European Councillors hollow. They are unsuitable only in the sense that they are too patriotic to be suitable for imperialist policies. On the other hand, by any reasonable test of merit Mr. Amery himself is the most unfitted for his post. But he is only a part and a symbol of a topsyturvy state of things. However, that is not going to last long. Till then Mr. Amery may indulge in his insults to, and cheap victories over, Indians. To the Indians he will serve as a reminder of their duty, lest they forget.

Smuts' Address

General Smuts' address to the unofficial joint meeting of members of the two Houses of the British Parliament was a historic event because no outsider is ever allowed to address Parliament, officially or unofficially, except the King. The honour was Mr. Churchill's tribute to a man whom he has always held up as an outstandingly "wise statesman." But many people outside Britain and America also had looked forward to the General's speech because, whatever his qualities as a statesman, he is certainly a striking example of a man who is both a philosopher and a soldier. The world expected some message of hope from the philosopher's vision of the post-war period. That expectation was not realised.

General Smuts certainly made a point when he emphasized that significant progress towards the building of a better and happier world had been made in that the conception of national relationship was now based on "United Nations" rather than "League of Nations," but what exactly does "United Nations" mean? Does the the idea imply the unity of all nations in the world regardless of man-made differences? Quite bluntly, does what he call "our race" mean the whole human race or the white race? General Smuts did not elucidate this point beyond bestowing his whole-hearted approval upon the Atlantic Charter. And the Atlantic Charter emphatically does not contemplate full and unconditional human equality without qualifications of race and colour. When General Smuts spoke it is the question of human equality which excited interest as the most relevant problem. For, he is the leader of South African Whites and the official symbol of colour discrimination in a continent, which essentially belongs to the coloured. His vagueness has thus a positive meaning: the blessings for which this "crusade" is being fought "for man's rights and liberties, for personal ideals of man's ethical and spiritual life", these blessings are not for the "natives" in Africa and the colonies.

But if the philosopher was not unexpectedly disappointing, the soldier was unexpectedly encouraging. For the second time since his present visit to Britain General Smuts repeated his view that "the defensive phase had ended, and the stage was now set for an offensive." With his unquestionable knowledge and experience this reiteration of his opinion bespeaks not only his own confidence in the possibility of an offensive but also a promise of it. Can it be hoped that what Russia and China and the people of America and Britain have been urgently asking for for so long will soon be staged?

Anglo-Turkish Alliance

Sunday was the third anniversary of Anglo-Turkish Alliance, which the Turks marked by a luncheon at the Embassy in London. Broadcasting on the occasion, the Ankara Radio declared: "Historical changes of great significance have taken place but the friendship between Turkey and Britain has continued with full understanding between the two countries". The United Nations cannot over-estimate the value to their cause of loyalty with which Turkey has honoured her word and her obligation. The period of Alliance has been marked by the fall of France, the collapse of the Balkans, the tremendous German drive into Russia and a series of serious defeats for British arms in north Africa, let alone grave debacles in the Far East. These events would have shaken the will and morale of any country situated as Turkey. Yet Turkey has stood firm through dark and menacing developments all around her, barring the invader's path across Thrace and Anatolia. What that means can be appreciated by imagining what would have happened if the Wehrmacht had been enabled to crash through Turkey into Syria, Iraq, Iran and Southern Caucasus.

Frankly Speaking

A New Feature

British and American aircraft have again resumed daylight sweeps over Western Europe with results that are not unsatisfactory. These raids are hardly a substitute for big things, for even the heavy night attacks which for some inexplicable reason seem almost to have been given up. One feature of the sweeps is, however, somewhat significant. Of late "Mustang" fighters attached to the Army Co-operation Command have been particularly prominent over Western Europe even penetrating into Germany. Is it merely part of a new routine or are they being seriously put through their paces as it were?

Solomon's Battle

As "authoritative circles" in London suggest fighting in the Solomon Islands to be reaching a crisis. Washington reports continued inactivity on land, but it is obvious that the Japanese are preparing for their main assault. During this time and in the process of getting ready, they are sustaining quite heavy blows. They have again lost many more aircraft, have had a number of warships damaged and have suffered severe damage to their supplies and installations in Guadalcanar, Buin and Rabaul. But the Americans, too, are paying a price for these blows. The situation as it appears at present distinctly favours the chances of the Japanese. This is not to say that it is hopeless. It can be saved if the American fleet and air force bring off some considerable victory in the Solomons area.

"Assaults On Freedom"

No one who knows anything about the fetters imposed upon the press in India at present will feel that Mr. Horniman exaggerated its plight in his address to the Progressive Group on "Freedom of the Press." He was appalled, he said, when he saw the way Government distorted or suppressed news, as this was an assault on the freedom of the people. Yet such things are done in the name of a war for freedom and democracy. Mr. Horniman has good reason to accuse the Government of India of abandoning sense of moral values by infringing the solemn undertakings they had given to the Standing Committee of the Editors' Conference. It remains to be seen if Government accept the unanimous resolution of the Conference held in Bombay. If not, the Press will have to take some concerted action to vindicate its elementary rights.

Scandalous If True

It is a pity that the sweepers working in Bandra, Khar and Santa Cruz have to go on strike to enforce their demand for a dearness allowance. If it is true that the road sweepers employed by the Bandra Municipality are paid a wage of Rs. 10 per month, it is positively scandalous. These sweepers are entitled not only to a dearness allowance but also to a decent increase in the wage itself.

U. S. TROOPS IN INDIA

NEW DELHI, Oct. 22.

Only one case of snake-bite is reported among American troops in India. It was a non-poisonous snake and there was no fatality.

Gen. Clayton Bissell mentioned this in giving a "health report" of the U. S. troops at a Press Conference to-day. He also mentioned that there were 21 cases of heat prostration and four fatalities.

Since the arrival of the Tenth Air Force in this theatre, said Gen. Bissell, two classes of diseases, mainly intestinal and insect-borne, had caused the highest sickness rate among American troops. The venereal rate remained low; it compared favourably with the rate in the United States.

"It shows", said Gen. Bissell summing up the position, "that we have not brought new disease and you have not given diseases to us. That should be complimentary both to the United States and India."

The American authorities imported their own medicines, but where local sources were available and abundant, they drew on them.

NO CONFLICT

Since the last Press Conference, a fortnight ago, there had been no case brought to attention of any conflict or friction between American soldiers and Indians.

Speaking of the care taken to promote the best possible relations between Americans and Indians among whom they lived, Gen. Bissell explained that on arrival in India each American soldier was given a pamphlet containing general information about the country.

Among "people in the headlines" of whom an objective, factual account was given in the pamphlet, were the Viceroy and political personalities like Gandhiji, Mr. Nehru and others.—A. P.

Mr. C. Rajagopalachar has promptly answered the Duke of Devonshire with a scheme for the immediate solution of the Indian deadlock. But if he thinks he has pushed the British and Indian Governments into a corner he must think again.

FROM SECRET RADIO-STATIONS

By Dr. LISTENER.

From Germany. Goering distributes his big fortune. The whole German nation is since a few weeks radiant with joy and delighted because she is awaiting a big fortune. The donor is Reichsmarschall Goering who promised in his speech to distribute his whole wealth among the nation. He said: "Our enemy and some people in our country say I have collected for myself a colossal fortune, but tell me where is this fortune, because I do not know, and I am very curious to know where it is. I am ready to take it and distribute among our people." 20,000 people heard this promise and applauded furiously, especially as he had said a few minutes previous: "I shall tell you only that what is true and I were a criminal if I would promise something what I cannot hold." Evidently Goering, who suffers from a softened fat brain, has forgotten what tremendous fortune he possesses and where it is. Therefore, a few radio-speakers in Germany, England and Russia reminded him where his fortune was placed; in various banks in Zurich, in Holland, Belgium, Italy New York, Buenos Aires, Stockholm, Rome and Lausanne; 17 million dollars, insurances in foreign countries and in Germany of 12 million dollars, the majority of shares in almost all big war-factories in Germany and all occupied countries, in coal-pits, oilfields, petrol rafineries, marvellous jewellery, partly stolen in the foreign countries, a palace and villa near Berlin, a house near Stockholm etc. altogether worth 75 million dollars. This enormous fortune will now be distributed among the whole German nation, if Goering will hold to his promise and if he does not want to be called a criminal. A man in his position who has the courage to say he has nothing, is either suffering from a softened brain, or, as he himself said, is a criminal, and the question is, which of these attributes enables him to be a Reichsarschall and successor of the great Fuhrer?

POLICY OF REPRESSION IS SUICIDAL

Industrial Association President's Plea For Obtaining Country's Support For War Effort

"We meet to-day at a crucial period in the history of our country. As a commercial Organization, it may be considered improper to meddle in politics. But in the conditions prevailing in India to-day, where are we to draw the line between economics and politics? Even in free countries economics and politics are inter dependent; much more so, in India, is the case. At every step in business we have to deal with Government which is only anxious to safeguard the British vested interests and is utterly indifferent to the development of Indian trade, commerce and industry and in many cases putting definite obstacles to our economic growth." Thus observed Mr. C. S Patel, President of the Association of Indian Industries at its annual general meeting held on Thursday evening.

The President continuing said:

It is very regrettable that at a time when Japan is at the very door-step of our land, the British Government, instead of obtaining the country's support for the war efforts by recognising its just and reasonable demands should have launched a suicidal policy of repression.

The irony of the situation is that the English who claim from house-tops to be fighting for democracy and freedom, should be denying these elementary rights to one-fifth of the human race under their control. Surprisingly enough, even the President of that great nation, the United States of America, has chosen to maintain silence regarding the Indian political situation. In the interest of the final victory for United Nations, we hope President Roosevelt, Marshal Chiang Kai-Shek and M. Stalin will use their good offices to bring about an amicable settlement between Britain and India, for India is no longer the domestic affair of Britain. The voluntary support of India is a very vital factor in the achievement of a complete victory over the Axis Powers. Therefore, the narrow and selfish economic interests of England's vested gentry should not be allowed to jeopardise the heroic struggle of the brave peoples of China and Russia."

WHY SUPPORT U.K.C.C.?

Continuing he referred to the "prejudicial" activities of the United Kingdom Commercial Corporation which were justified by the Government in spite of the complaints of the whole commercial India. The Government should have organised an Indian agency, he said, to perform the functions of U. K. C. C. and would have got the profits.

He referred to the unhelpful and unsympathetic attitude of the Government in the field of Industries. Unlike in the countries like China, Australia and Canada where the opportunities provided by the war were exploited to expand the industries. These opportunities were wasted in India. Orders for products of large scale industries were placed abroad, though the need for establishing these industries in India had been stressed.

Though some progress had been made in the field of medium scale industries, it would not be maintained after the war if adequate protection was not given.

Turning to the problem of post-war reconstruction, he said that many committees were working 'in camera'. The reconstruction measures were not to be kept in secret. These problems needed to be tackled in consultation with the leaders of Commerce and Industry.

Concluding he drew a picture of the financial position of India in the post-war period. Though India was a creditor country this favourable position might be altered by the manoeuvres of interested parties.

Govt. To Appoint Advisory Council

The Supply Commissioner has written to the Municipal Corporation regarding the decision of the Bombay Government to set up a Food Advisory Council. The Corporation has been asked to elect a representative on the Council.

When the matter came before the Corporation on Thursday Mr. D. V. Pradhan moved the resolution to request the Government to nominate three councillors on the Advisory Council instead of one which was agreed to.

PLEA FOR REDUCTION OF TAX ON MOTOR CARS.

Mr. R. K. Tatnis then moved a resolution to amend the Municipal Act so as to reduce tax on motor cars by 40 per cent in view of the petrol rationing and black outs which restricted the use of motor cars.

The Municipal Commissioner said the Motor Tax was first levied in 1922 and since then no revision was made. If any revision was made now, he could not say whether the tax would be increased or decreased in view of the enormous expenditure undergone by the Bombay Municipality on the repairs of the roads year by year. He was representing to the military authorities for their fair quota for roads repairs as unless the military authorities bear the burden, it was possible that the tax might be increased rather than decreased.

The resolution was carried.

SUNDAY AS HOLIDAY.

The House agreed to the resolution of Mr. D. V. Pradhan to represent to the Government to fix Sundays for holidays instead of week days for the Shops Assistants and to reduce the working hours to nine hours only instead of nine hours and a half per day.

The House then adjourned.

Decontrol Of Gram Prices

The Director of Information, Bombay, writes:—By a notification issued on August 26 the Government of Bombay fixed maximum prices for gram, gramdal and turdal on the basis of the maximum wholesale prices for these commodities then prevailing in Bombay.

It has, however, been brought to the notice of the Government that the prices of these commodities in the primary markets have gone up and that, as a result, imports of these commodities into Bombay are not taking place freely. In order to encourage such imports in adequate quantities the Government has decided to decontrol their prices.

CITY BAN ON LETHAL WEAPONS

The Commissioner of Police, Bombay, has issued an order prohibiting for a period of one month from October 23 the carrying of bludgeons, lathis, sticks, or any other similar weapon, capable of being used as a weapon of offence.

BEST WAY TO PUNISH AXIS RINGLEADERS

Intensify Allied Offensive, Says Chinese Paper

CHUNGKING. (By Special Cable)

The 'Hsinh Wa Jih Pao' (October 17) observes that the majority of the world's peoples desire that the Fascists of Germany, Italy and Japan, and their henchmen who have committed atrocities should be brought to trial during the period of the war and after it. The paper recalls President Roosevelt's statement in his fireside chat that the United Nations have decided to establish the identity of Nazi leaders responsible for innumerable acts of savagery and to name, arrest and try them in accordance with judicial procedure. This suggestion must be endorsed by the peoples of all United Nations, the paper declares.

The paper emphasises that during the past five years the Japanese militarists, who are associates of Nazi Germany, have committed criminal deeds in the occupied areas of China. Since the Japanese militarists have decided to exterminate other nations and destroy their culture they as well as their henchman, Wang Ching-wei, should be arrested. The paper urges that the punishment of Fascist ringleaders should not be delayed. The best way to punish them is to intensify the Allied offensive.

The 'Hsin Su Pao' (October 17) writes that President Roosevelt and Sir John Simon announced that the United Nations are setting up a committee for the investigation of war crimes. President Roosevelt made it clear that it is the ringleaders of Germany, Italy and Japan, and not the peoples of these countries, whom the United Nations wish to punish. He maintained that the legal procedure should be strictly observed in the trials of war criminals. Axis peoples, observes the paper, have thus been told that the United Nations will in no case punish innocent and common people.

ALLIED AIR ATTACK ON TOBRUK AND DABA

CAIRO, Oct. 22.

To-day's Middle East joint war communique states: "Apart from patrol activity there is nothing to report from our land forces yesterday.

On the night of October 20/21 our bombers attacked targets at Tobruk, Daba and along the coastal road. Our night fighters also operated against transport and enemy encampments. Air activity continued over the battle area yesterday. Most of our operations were directed against forward landing grounds but stores, dumps and vehicles were also successfully attacked.

The enemy were on the defensive throughout the day and three of their fighters were shot down. Our long-range fighters shot up and destroyed lorries, ammunition trucks and petrol-carrying vehicles on the road between Gambut and Sidi Barrani.

Enemy activity over Malta was again confined to fighter and fighter-bomber operations. The damage they inflicted was on a small scale. Our fighters shot down one Macchi 200 without loss. From all the above operations three of our aircraft failed to return."

Famine In Honan Won't Affect China's Resistance

LONDON, Oct. 22.

Famine in China's Honan Province will not influence her resistance to Japan to any extent, said Dr. George Yeh, the Chinese Minister of Information in London to-day. The famine is south of the Yellow River. In addition there has been drought and plague of locusts. "We are in a position", said Dr. Yeh "to send supplies to the area, if we can obtain transport." After the war, it is the Chinese intention to develop the north-west area, which was rich in minerals, Dr. Yeh added. One important development would be the establishing of communications by rail and road with Russia. There is also oil in the area.—Reuter.

Moore Says:

JINNAH WILL BE INDIA'S FIRST PREMIER

CALCUTTA, Oct. 22.

Commenting on the Lords' debate, Mr. Arthur Moore said: "Lord Samuel has made a constructive speech that will count. Events will compel the Government to listen to him. To provide Muslims with a guarantee they want, the Statesman can only be Mr. Jinnah and it is certain that he will get the collaboration of the Congress.—A. P.

ACTIVE TRADE BUYING IN N. Y. COTTON MARKET

Bombay, Oct. 22.

On Wednesday, the New York cotton market was very steady with active trade buying. The Government demand for cloth and purchases for Lend and Lease requirements are attracting attention.

The New York cotton market opened at a decline of one point with December 18.26 and advanced to 18.39. The demand was met by hedge selling and the market closed at a net rise of 2 to 12 points. Spot cotton prices gained 10 points at 20.01c per lb.

The New Orleans cotton futures market was also very steady and closed at a rise of 12 to 15 points. Spot cotton prices advanced 12 points at 19.02c. per lb.

CONSUMPTION PROSPECTS

The following extract from the "Manchester Guardian" will be found interesting:—

"It seems clear that the cotton market was also helped by the unfavourable war news from North Africa, as a bullish interpretation is always given to anything which suggests that the war will be a long one and that the Government demand for essential war materials will be maintained at a high level. So far as cotton is concerned one important consideration is the Government order under which many mills have had to transfer a part or all of their procedure capacity to the manufacture of bagging. For the current year the War Production Board has set a "goal" of 14,000,000,000 square yards of cotton cloth, or about 18 per cent more than last year's actual production. With the same average cloth production per pound of cotton as in 1941 the attainment of this figure would require the consumption of 12,000,000 bales of cotton, but the proposed increased production of bagging, fabrics, ducks, and other heavy goods seems likely to result in a higher average weight per square yard of cloth this year. A recent calculation by the United States Department of Agriculture shows that the average production of cloth per bale of cotton fell from about 1,275 square yards at the end of 1938 to about 1,150 square yards at the beginning of this year, and a further sharp fall is clearly indicated. This should bring total consumption to well over 12,000,000 bales this year."

The Half-Column By "Dim"

Gestapo Agent P. Q. 13 reports that the Parsee General Hospital is to be requisitioned by the military. When, dear Capt. Ritchie, will I have the privilege of seeing the Bombay Gymkhana, the Yatch Club, the Willingdon and the Cricket Club requisitioned? And, dear Captain Ritchie, must Englishmen in India still dance once a week at some of these clubs? Other Englishmen are fighting on so many fronts in this war and Englishwomen are working long hours in munition factories. And, dear Captain Ritchie, what about some of these palaces on Nepean Sea Road, which are only occupied by their tenants during the racing season? When will these be requisitioned? Dear, dear Captain, I am just waiting to see you move.

Writes B. G. Horniman in a preface to a book:

"The only excuse I have for writing at all is that I have a devil of a conscience, which gets stirred up by public and private wrongs, injustice in courts, oppression and repression, police excesses, cruelty to animals, the drink trade, the Old Woman of Bori Bunder, the arrogance of public officials and many other things."

FOOD PARCELS FOR INDIAN PRISONERS

(From Our Own Correspondent.)

LONDON, Oct. 20.

The Dutchess of Gloucester paid her first visit to the India House where Her Highness inspected the parcels of food and winter clothings for Indian prisoners of war in Europe.

Mrs. Amery introduced the Royal Highness to Sir Azizul Huque the High Commissioner for India, Mr. Shamaldhari Lal the Deputy High Commissioner for India and a band of over 50 voluntary Indian women workers.

Mrs. Lall wife of the Deputy High Commissioner presented a bouquet to the Duchess. Her Highness congratulated Lt. Col. Claude Shepherd and other organisers who are trying to dispatch to Geneva 5,000 parcels of food and warm clothings to meet the needs of 5,000 Indian prisoners now in enemy hands in Europe.

Smuts' Words Impress American Press

WASHINGTON, Oct. 22

Field-Marshal Smuts's speech created a great impression and all papers carried it on front pages. It is considered here that the most striking phrase was that the stage was set for the offensive stage of the war.

This is linked with President Roosevelt's recent disclosure that a major military decision had been made by the United Nations.

Field-Marshal Smuts' declarations in the Commons, "find their echo in the facts of the war", Senator Tom Connally, Chairman of the Foreign Relations Committee, declared.

"There is no doubt that the great period of Nazi Blitz is now terminated."

Although warning that "difficult days are still ahead", Mr. Connally expressed the opinion, "We are now approaching the threshold of a new period, that of the offensive by the United Nations.

President Roosevelt signed the Tax Bill, imposing the greatest revenue burden ever on the American people.—Reuter.

British Labourites Welcome C. R.'s Proposals

(From Our Correspondent)

LONDON, October 22.

The Press statement of Mr. C. Rajagopalachari that he would like to fly to England to convince the British public about India has raised keen interest in the political circles here and especially the Labourite supporters of Indian freedom.

Mr. W. Dobbie, member of British Parliament from Rotherham, in an interview to our correspondent said: "We would welcome Mr. Rajagopalachari's presence in London at this critical moment. A heart-to-heart talk with a statesman of Mr. Rajagopalachari's standing and prestige will immensely contribute to a solution of the Indo-British deadlock. Government should give him all necessary facilities for travelling to this country."

Other Labour supporters are inclined to believe that the detailed proposal of Mr. Rajagopalachari is worth-considering and likely to lead to a satisfactory solution of the present deadlock, if implemented by Government in consultation with the principal leaders of India.

WHAT MR. MATHEWS ACTUALLY SAID

The following important correction has been issued by Reuter:—

On September 24 we issued at 1-45 a. m. a New York item containing comment by the "New York Times", making a plea for further efforts to obtain settlement of the Indian problem. Owing to a telegraphic mutilation a vital sentence was received in the following manner: "Mr. Herbert Mathews, "New York Times" chief correspondent in India, has reported in a dispatch that he found that "virtually all Indians are convinced that the British will have no friend in India after the war."

What Mr. Mathews' dispatch actually said was: "He found that virtually all Indians are convinced that the British Government have no intention of freeing India after the war."—Reuter.
